

# MICRO STORES

A custom store configuration, allowing you to have multiple stores under one “anchor” Bright Sites store. Each Micro Store provides its own customized shopping experience.

## Store Design and Configuration

Each Micro Store will maintain the overall branding of your anchor store, but can have its own identity and custom landing page.

Micro Store custom programming is required.

## Micro Store Access Options

Access into a Micro Store can be setup in a variety of ways:

Option 1: Users will see all Micro Stores and may enter without a passcode.

Options 2: Users will see all Micro Stores but a passcode is required to enter a particular Micro Store.

Option 3: All Micro Stores are kept private and a passcode is required on the landing page.

## Shopping Session Permissions

In a Micro Store, users may experience shopping session permissions based on:

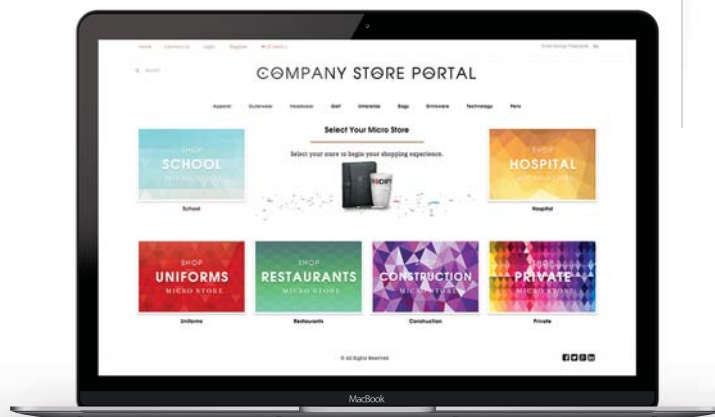

- Categories/Products
- Content Pages
- Logos
- Payment Methods
- Manager Approvals (MOAS)
- Budgets

## Store Management & Reporting

All Micro Stores are managed under the anchor Bright Sites store.

- Categories/Products
- Order Management
- Reporting

You may sort your custom reports by Micro Store.

## Micro Stores are perfect for:

-  Sport Teams
-  Medical/Hospital
-  Multiple, Small Clients
