

## VIRTUAL SAMPLES

Maintain complete control over corporate branding while allowing shoppers to customize products and view a sample from the storefront. Perfect for corporate print materials and uniforms.

### Print Ready Samples

Create print-ready, layered PDF files using high-quality images and DPI settings for corporate stationary.

### Online Proof Approval

Approve virtual samples right from the storefront to save time and reduce error.

### Product Personalization

Add personalized text to products with specified font styles and formatting.

### Quick Fill

Quickly add company information to personalization fields by creating groups of options.

### Virtual Sample

Preview large product images side-by-side with your personalization and logo choices.

### Logo Permissions

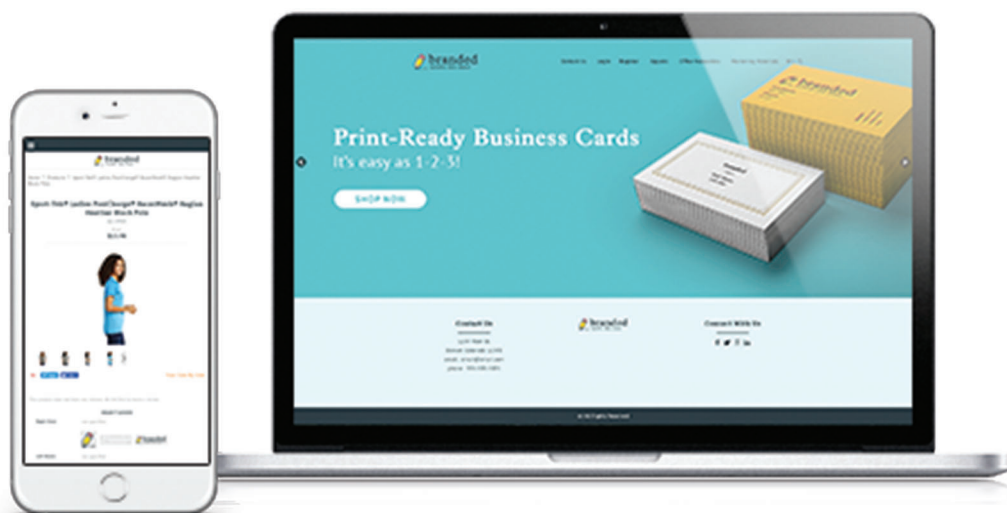

Manage who can use certain logos and where the logos can be placed on the products with permissions.

### Logo Charge

Option to charge for the use of a logo or to use an additional logo on a product.

### Multiple Logo Locations

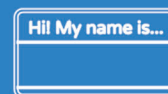

The ability to allow more than one logo location and logo choice to a single product.
